સહજ - એક અદભૂત અનુભવ છે. પોતાને જાણવાનો!

આનંદ પામવાનો, ભૂતકાળને ખંખેરવાનો. માંદગીને ગુડબાય કહેવાનો!

જીંદગી અને સંબંધોને નવી નજરે જોવાનો! સપનાં સીંચવાનો.

લાગણીઓને સમજવાનો. રઘવાટને અલવિદા કરીને મોકળાશથી મોજ કરવાનો!

These three days are a gentle gift you offer yourself. A gift of stillness, of space to breathe, of moments to listen intently to your own heart. Step softly into a space of peace and gentle care, where the days become a tender embrace for your spirit and a loving pause for your soul. By stepping into this experience, you are saying “yes” to peace, to renewal, and to the tender care your spirit has been longing for. Let these days be your sanctuary, a time to rest deeply, to release what no longer serves you, and to reconnect with your truest self. Carry home the quiet calm you've discovered here, letting it flow effortlessly into every corner of your life.

Wabi Sabi *Japanese Philosophy*

Embracing imperfection and finding beauty in the simplicity of life, encouraging acceptance and contentment.

Engage in creative activities that explore the

Wabi Sabi philosophy, such as mindful art-making nature-based crafts focusing on finding beauty in imperfection.

To deepen this experience, we weave in the quiet elegance of Wabi-Sabi, helping you embrace imperfection and see beauty in life's natural flow, and the calming practice of Shinrin-Yoku, inviting you to soften into the present moment through mindful walks in nature.

Together, these influences create a warm, nurturing retreat where healing happens at your own pace, and every breath brings you closer to feeling lighter, more balanced, and deeply connected with yourself and your surroundings.
